Day 2

The morning starts with beautiful fused glass Christmas hanging decoration making with Becci. She will teach you how to cut glass before you go on to create your own festive tree scene. You'll use sheet glass, dichroic glass and crushed glass in order to explore just some of the techniques and materials used in the fused glass process.

Becci will also show you how to acid etch on dichroic glass to personalise your scene.

On completion, Becci will take away your piece to be fired in her kiln.

Your hanging will then be posted out to you.

You will then break for lunch.

Needle felting with

Made By Mo Decor

After lunch your next workshop will be with Mo Parker of MadeByMoDecor for a 3d needle felting workshop.

Mo will guide you through the whole process of how to construct a beautiful robin, set into a wooden spool, or a slice of beautiful hardwood. It will make a perfect ornament to enjoy, especially at this time of year!

Mo discovered needle felting six years ago, found she loved it, and quickly became hooked! She has since gone on to sell her sculptures at many fairs and shows around Gloucestershire and South Wales.

If you've never tried it, you will find that it's a very therapeutic and mindful activity.
